

App	Dependent	Enabled
	<p>Pinterest</p> <p>Use to bookmark websites.</p>	<p>Create and plan for a school event (real or imagined) using pins to describe organizational roles, to develop the theme, decorations, activity ideas etc.</p>
	<p>Twitter</p> <p>Send short messages of 140 characters to a group of 'followers'</p>	<p>Retell a historic event from the perspective on one of the individuals who played a part, as if they were 'live-tweeting'.</p>
	<p>PowerPoint</p> <p>Create a slideshow presentation</p>	<p>Use the hyperlinks feature to create a choose-your-own-adventure interactive e-book.</p>
	<p>Thinglink</p> <p>Create an interactive image with links to research sites.</p>	<p>Build an interactive map of the school, with floorplans created by students and annotated with links to student created videos introducing users to the different locations.</p>
	<p>Haiku Deck</p> <p>Create an image based slideshow.</p>	<p>Use as a digital story-starter set; students select one or more images to use as a stimulus for writing an original story.</p>
	<p>Wordfoto</p> <p>Edit photos with themed words.</p>	<p>Students take a photo of an image that reflects the theme of a chosen text. They use key words from the text to annotate; other students predict what the text is from the combination of words and images.</p>
	<p>Pearltrees</p> <p>Create 'mindmaps' of hyperlinks.</p>	<p>Design a personalized multimedia channel, with links to a wide range of online videos grouped according topic.</p>
